## 5 Request Process

Records held Dis-Chem may be accessed on request only once the requirements for access have been met. A requester is any person making a request for access to a record of Dis-Chem.

Requests for access to records held by Dis-Chem must be made by the requester using the prescribed Form 2: Request for Access to Record, available on the Information Regulator website (<https://info regulator.org.za>). Such request must be made to the Information Officer at the address, or email address provided for in clause 2 above.

In lodging the request, the requester must:

- provide sufficient detail on the request form to enable the Information Officer to identify the record and the requester;
- indicate which form of access is required and specify a postal address, fax number and/or email address within the Republic;
- indicate whether, in addition to a written response, the requester requests to be informed in any other manner and state the necessary particulars to be so informed;
- identify the right that the requester is seeking to exercise or protect and provide an explanation of why the requested record is required for the exercise or protection of such right.
- If a request is made on behalf of a person, the requester must then submit proof of the capacity in which the requester is making the request to the satisfaction of the Information Officer.

If a request is made on behalf of another person, the requester must then submit proof of the capacity in which the requester is making the request to the satisfaction of the Information Officer.

If an individual is unable to complete the prescribed form because of illiteracy or disability, such a person may make the request orally to the Information Officer.

If access is requested to a record that contains information about a third party, Dis-Chem is obliged to attempt to contact this third party to inform them of the request. This enables the third party the opportunity of responding by either consenting to the access or by providing reasons why the access should be denied.

In the event of the third party furnishing reasons for the support or denial of access, the Information Officer will consider these reasons in determining whether access should be granted, or not.

The Information Officer, as soon as reasonably possible after the request has been received, shall decide whether or not to grant the request.

If Dis-Chem cannot find the records that the requester is looking for despite reasonable and diligent search and it believes either that the records are lost or that the records are in its possession but unattainable, the requester will receive a notice in this regard from the Information Officer, setting out the measures taken to locate the document and accordingly the inability to locate the document.
